

SURVEY RESULTS

What follows is a complete list of all the resources that were surveyed as part of the City of Washburn Reconnaissance Survey. Each property surveyed during the course of this project has had a digital photograph taken of it and this photograph and a summary of the historical and architectural analysis performed on the property and other required information such as an address and parcel ID number, plus additional historic data, has been copied into the DHP's computerized database using the Wisconsin Preservation Database (WHPD) software developed by the DHP. Each property is then entered into the DHP's Architecture & History Inventory (AHI) and receives its own identifying number, which is called its AHI Number and which is listed in the first column of the table that follows.

When a specific building date is not given, bracketed dates are used when possible. These dates reflect the appearance or non-appearance of a building on one of the following maps: the 1886, 1896, and ca.1918 Bird's Eye Views of Washburn; the 1886,1889, 1893, 1898, 1904, 1908, 1909, 1918, 1926, and 1926 (updated to 1940) Sanborn-Perris fire insurance maps of Washburn. The abbreviations given below for architectural styles and vernacular building forms are the same abbreviations used in the DHP's WHPD software. These are as follows:
